PRESIDENT'S MESSAGE

2023 year is shoving off with a number of new improvements on the way!

Near the clubhouse, we are beginning two significant capital projects:

1. Completing the final phase of the patio/hardscape project, and
2. Creating a new cart staging area in front of the cart barn.

Both of these efforts will include management of rainwater runoff to channel the majority of water to designated drains and away from low collection points which cause safety issues. The new hardscape pavers will start at the parking lot, continue along the walkway to the new patio, and carry through near the bocce courts and around the tree along the courts. The cart barn project will collect water from three main gutters, resurface the area to meet the new pavers and remove the 3 old white pine trees in front of the cart area. Work is underway and should be completed before spring.

Away from the clubhouse, various winter projects are being implemented, including our continuing work on sand trap drainage and removing various dead trees around the course. The beginning of our exciting new tee project is also taking shape. The new tee locations can be seen where the sod has been removed on a number of holes, forward of the current ladies tees. We hope to have this work completed in time for the growing season this spring. Please talk to our Head Pro, Dan Philippon for more details.

Inside the club, besides our normal deep cleaning activities, we have upgraded the woodwork and doorways from Williamsburg Blue to Antique White.

This new, fresher look is part of our continuing effort to upgrade the interior appearance of our club. We have also begun reconditioning our Windsor chairs to like-new conditions. 10% have been completed as a test, and we will complete the whole set this year. Our Windsor chairs were custom designed for CRY&CC 32 years ago, and we are excited about this improvement project.

I wish to thank the membership for the support of our various activities around the club. We have a plethora of indoor and outdoor activities and events available, and I encourage you to take advantage of the fun and meet some new friends. Here's to a great 2023!

Cheers!

TREASURER'S REPORT

Our year ended on a very positive note; our net profit closing out the year was just over \$115,000. I want to acknowledge all of the department managers for their careful stewardship during this past year of unforeseen inflation. Our early forecasts in March suggested that we might see an 11% increase in expenses over budget, but thanks to careful management, particularly in the House and Greens and Grounds, we managed to stay in a very healthy financial position by the end of the year.

In terms of our capital spending, we completed the 2022 capital budget with the installation of a much needed lift at the grounds maintenance shed and the purchase of a new truck for the superintendent. If our strong membership numbers continue, we will be in a good position to honor the commitments made in the 2023 capital budget. With the large number of pre-paid dues, we can hit the ground running with many of the projects that are to be initiated during the next several months.

On a personal note, I would like to recognize and thank a member of our committee who is about to relocate to another state, Bruce Anthony. Bruce was a long-time member of the Finance committee, a former Treasurer and Board member, whose guidance and expertise has been invaluable to the Club for many, many years. Both he and his wife Jean have been fundamental to the operation of CRY&CC for decades. The phrase, "standing on the shoulders of giants" comes to mind when I think of legacy that these two have left. Bruce and Jean, you will be greatly missed.

Jim Landskroener, Treasurer

JANUARY BOARD MEETING NOTES

- To conditionally approve the eight memberships presented to the Board for approval as none of the applications were complete.

- To blacktop the area in front of the cart barn at a cost of \$26,262.

The next Board Meeting is scheduled for February 21st.

FROM THE MANAGER

It's February. We have now reached the official romantic month of the year. Book dinner or brunch with your sweetie at our Valentine's events. Don't forget to order roses to have waiting on your table. Delightful music will be provided at both events (see details in this newsletter).

If you enjoyed Ulysses S. Grant's visit last year, he returns this year to talk about the Siege of Vicksburg, 1863. Make your reservation soon as this was a popular event.

Trivia, Yoga, Pilates, and Game night continue to keep you busy inside.

I want to highlight our beer dinner on February 25th. We are fortunate to have Troegs Independent Brewing from Hershey, PA at the Club, which is one of my favorite breweries! We always feature their "Mad Elf" in December. Troegs will bring seven different beers for you to sample. Chef Mike will pair some delicious beer-friendly foods. Even if you aren't a regular beer drinker, come out and try these and learn about different beers while you taste them.

Mardi Gras is upon us on February 21st, with fun specials and beads. Just a signal that spring is not far off!

A first at CRYCC is the "Staged Reading of A Brief History of Man", a play by local writer Earl Lewin. We are excited to have Mr. Lewin present his new script at our club. Dinner is available from 4-6 pm for the show, and then the show begins at 6pm. You may sign up for dinner and show or just the show. This may be the beginnings of Broadway in Chestertown!

Remember the Club for your personal events, as well. We are happy to help you plan your event.

Pray for our troops who keep us safe. See you at the Club because "your friends are already here."

-Jerren Wetterau, Clubhouse Manager

Indoor Golf Studio

The Indoor Teaching & Fitting Studio is now OPEN! Whether you are a beginner golfer or a Club Champion, I am set up in the ballroom ready to help you play better golf or to help you find clubs that will change your game. I just received the New Callaway PARADYM and Taylor Made STEALTH 2 demo irons and woods for you to try. Both companies are using more carbon in their woods and for good reason. Carbon is lighter and more flexible, which means increased energy transfer to the ball. When more energy is transferred, you create more ball speed and that leads to longer shots. This is a good thing!

I have our Flight Scope Launch Monitor, Video Analysis and Bodi-Trak Pressure Mat, and that's all we need to get you hitting the ball better, straighter, and farther!

Flight Scope delivers ball and club head data instantly while also showing ball flight via a stream on the impact screen. Below are just a few of the ball and club data points the unit shows:

Ball Data

Speed, launch angle, spin rates, height, distance

Club Head Data

Speed, attack angle, swing path, face position, loft at impact

Bodi-Trak records your pressure against the ground as you swing. Knowing how to correctly use your pressure to the ground is the foundation of creating a balanced and powerful golf swing!

When you combine these systems with video of your swing, the learning curve is shorter due to the instant feedback of how your swing action creates ball flight. I've already started and looking forward to seeing you in the studio soon. Email me at dphilippon1@yahoo.com or call the Golf Shop at 410-778-3818 x3 to make an appointment.

SUPERINTENDENT'S LETTER

The weather to start out the winter season has been fantastic. We have been able to get a good jump on the winter/spring projects.

We have cleared out the old, contaminated sand from the back bunkers on #4, #8, and the front 2 on #13. Installation of the capillary concrete and filling of sand will begin later in February or the start of March.

The distance tees construction has also begun. Tee locations have been identified, and removal of the sod has been completed. Next, we will start bringing in the sand mix base. Leveling and sodding will happen when sod becomes available early springtime.

We were able to use the sod from the distance tee locations to renovate the back of #6 tee. I should have taken a before and after picture, but it turned out great.

Lastly, Unlimited Tree has removed all needed trees on the golf course, clean up of the stump holes will start immediately.

Great start to a new season!
